

## EXERCISE OF “MARKET WARRANT AQUAFIL S.P.A.” WARRANTS

### SECOND EXERCISE PERIOD BEGINS TODAY

**Arco (TN), March 5, 2018** – Aquafil S.p.A. (“**Aquafil**” or the “**Company**”) [ECNL IM] announces that, pursuant to the Rules for the “*Market Warrant Aquafil S.p.A.*” Warrants, the second exercise period for the “*Market Warrant Aquafil S.p.A.*” warrants (the “**Warrants**”) will begin today, March 5, 2018.

The monthly average price of Aquafil’s shares (ISIN IT0005241192) in February 2018, the exercise ratio for the conversion of the Warrants for March 2018 and the methods of exercise of the Warrants have been announced by the Company on March 2, 2018, in accordance with the terms set in the Rules for the “*Market Warrant Aquafil S.p.A.*” Warrants.

For further information, please refer to the Rules for the “*Market Warrant Aquafil S.p.A.*” Warrants, available from the Investor Relations section of the Issuer’s website (<http://ir.aquafil.com/eng/shareholders-information/>).

\* \* \*

Founded in 1965, **Aquafil** is one of the main players, in Italy and worldwide, in the production of synthetic fibers, particularly for Polyamide 6 applications. The Group is present in three continents with a workforce of over 2,700 at production sites in Italy, Germany, Scotland, Slovenia, Croatia, USA, Thailand and China. For further information: [www.aquafil.com](http://www.aquafil.com)

Aquafil is a pioneer in the circular economy also thanks to the ECONYL® regeneration system, an innovative and sustainable process able to create new products from waste and give life to an endless cycle. The Nylon waste is collected in locations all over the world and includes industrial waste but also products (such as fishing nets and rugs) that have reached the end of their useful life. Such waste is processed so as to obtain a raw material (caprolactam) with the same chemical and performance characteristics as those from fossil sources. The polymers produced from ECONYL® caprolactam are distributed to the Group’s production plants, where they are transformed into BCF yarn and NTF yarn.
