

**THE BOARD OF DIRECTORS APPROVED  
THE OPERATING AND FINANCIAL RESULTS FOR Q1 2018**

- **Revenues at March 31, 2018: €147.4 million, up by 1.5% compared to €145.2 million for the same period of 2017;**
- **EBITDA: €22.3 million, +7.4% (€20.7 million in Q1 2017);**
- **Adjusted EBIT: €15.9 million, +8.5% (€14.7 million in Q1 2017)**
- **Net profit: €9.8 million, +20.3% (€8.2 million in Q1 2017);**
- **Net financial position: €135.8 million compared to €112.1 million at December 31, 2017;**
- **Closing with Invista (April 27 2018) for the acquisition of its activity related to the Polyamide 6 BCF Fiber business in Asia Pacific with a turnover of about 50 million US dollars, an expected margin in line with Aquafil Group's consolidated EBITDA margin after business integration and a total cash commitment between 26.3 \$/mil and 31.3 \$/mil, including the necessary working capital.**

**Arco (Trento), May 14, 2018** – The Board of Directors of Aquafil S.p.A. (**Aquafil** or the **Company**) [ECNL IM] today approved the Company's operating and financial results at March 31, 2018.

Aquafil Group closed the first three months of the year with positive results, improving all its profitability indicators compared to the same period of 2017.

*"We are very satisfied with the Group's performance for the first months of 2018," said Giulio Bonazzi, Aquafil's Chairman and Chief Executive Officer. "Our results — calculated on a like-for-like consolidation basis — confirm the soundness of our business model and our outstanding positioning at a global level. In just a few weeks from our listing, we have also completed several major projects, focusing our commitment towards organic and non-organic growth. The most significant event in this very first part of the year was the acquisition of INVISTA's assets related to the Polyamide 6 BCF Fiber business in Asia Pacific, which will allow us to strengthen and expand our presence in this geographical area, achieving an extremely high rate of growth. The acquisition is expected to yield the first economic benefits as soon as from mid-second quarter. In the meantime, the Carpet Recycling ACR#1 plant in Arizona started to operate, the first of a series of new sites aimed at further increasing ECONYL® production. The short-term goal of this initiative is to achieve a year-after-year increase in the production of fiber through the ECONYL® Regeneration System, a world's one-of-a-kind process that complies with the Circular Economy principles in terms of innovation, efficiency and productivity."*

## **Revenues**

Revenues grew by 1.5%, amounting to €147.4 million compared to €145.2 million for Q1 2017, mainly as a result of the increase of product sales volume in the Polymers line.

A breakdown of Q1 2018 sales by geographical area and the three lines of product is given below, with a comparison with the figures for Q1 2017:

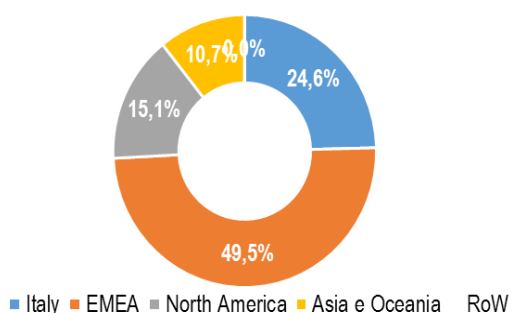

**Turnover by Product Area - Q1 2018**

**Turnover by Product Area - Q1 2017**

**Turnover by Geographic Area Q1 2018**

**Turnover by Geographic Area Q1 2017**

*Breakdown of sales by geographical area*

The following table compares the figures referring to the value and percentage of sales broken down by geographical area for the first quarters of 2018 and 2017:

<b>Sales (€ million) by geographical area</b>	<b>Q1 2018</b>	<b>%</b>	<b>Q1 2017</b>	<b>%</b>
Italy	36.28	24.6%	32.08	22.1%
EMEA	73.03	49.5%	72.58	50.0%
North America	22.26	15.1%	24.46	16.8%
Asia and Oceania	15.79	10.7%	15.95	11.0%
RoW	0.03	0.0%	0.12	0.1%

<b>TOTAL</b>	<b>147.38</b>	<b>100.0%</b>	<b>145.19</b>	<b>100.0%</b>
--------------	---------------	---------------	---------------	---------------

Sales on the Italian market increased mainly thanks to the Polymers line, whereas North America's decrease was essentially attributable to the exchange rate difference for the two reporting periods.

The breakdown of sales by geographical area reported no significant changes compared to March 31, 2017.

*Breakdown of sales by line of product*

The following table compares the figures referring to the amount and percentage of sales broken down by line of product for the first quarter of 2018 and the same period of 2017:

<b>Sales (€ million) by Line of product</b>	<b>Q1 2018</b>	<b>%</b>	<b>Q1 2017</b>	<b>%</b>
BCF	97.16	65.9%	102.42	70.5%
NTF	26.45	17.9%	27.68	19.1%
Polymers	23.77	16.1%	15.09	10.4%
<b>TOTAL</b>	<b>147.38</b>	<b>100.0%</b>	<b>145.19</b>	<b>100.0%</b>

The Polymers line's sales increased compared to the same period of 2017, following the decision to decrease the sales of low-margin commodity products of the BCF line, which thus shrank due both to the resultant impact and the effect of the exchange rate difference for sales in the dollar area.

The Group's revenues from sales of ECONYL®-branded products amounted to approximately 38% of fiber sales, up by about 2 percentage points compared to the first quarter of 2017.

**Operating Profit and Margins**

EBITDA went from €20.7 million to €22.3 million, up by 7.4%.

EBITDA margin improved by nearly one percentage point, growing from 14.3% to 15.1%, also thanks to the increase in the Group's sales of ECONYL®-branded products, which shifted the sales mix towards higher-margin products.

Net profit for the first quarter of 2018 amounted to €9.8 million, up by 20.3% compared to the same period of the previous year (€8.2 million).

Lastly, net financial position grew to €135.8 million, compared to €112.1 million at December 31, 2017.

The increase was mainly attributable to both the investments made during the period, including advance payments to Invista for the acquisition of its assets related to the Polyamide 6 BCF Fiber business in Asia Pacific, and the higher level of Working Capital used, as a result of sales growth for Q1 2018 compared to Q4 2017 and the final settlement of listing-related costs recorded in 2017.

### **Declaration of the appointed manager**

"The Manager responsible for preparing the company's financial reports, Sergio Calliari, declares, pursuant to Paragraph 2 of Article 154-*bis* of the Consolidated Finance Law, that the accounting information contained in this press release corresponds to the company's records, ledgers and accounting entries."

\* \* \*

Founded in 1965, **Aquafil** is one of the main players, in Italy and worldwide, in the production of synthetic fibers, particularly for Polyamide 6 applications. The Group is present in three continents with a workforce of over 2,700 at production sites in Italy, Germany, Scotland, Slovenia, Croatia, USA, Thailand and China. For further information: [www.aquafil.com](http://www.aquafil.com)

Aquafil is a pioneer in the circular economy also thanks to the ECONYL® regeneration system, an innovative and sustainable process able to create new products from waste and give life to an endless cycle. The Nylon waste is collected in locations all over the world and includes industrial waste but also products (such as fishing nets and rugs) that have reached the end of their useful life. Such waste is processed so as to obtain a raw material (caprolactam) with the same chemical and performance characteristics as those from fossil sources. The polymers produced from ECONYL® caprolactam are distributed to the Group's production plants, where they are transformed into BCF yarn and NTF yarn.
